Table Stand
from nwgi | NW Graphic Imaging

Table Top L

Make sure you are using the right guide!

nwgi has several different retractable display models that have **different print sizes.** Using the wrong template will delay your project and will require a new file with the correct sizing to be submitted.

What size should I make my file?

Your file should be sized 14.18" x 27.5".
ONLY THE MIDDLE 26.77" WILL BE SEEN. The extra will wrap around the top and bottom. It is highly recommended that you bleed the bottom and top of your artwork so that you don't see your print's edges.
What Resolution should my files be?

For raster graphics, nwgi recommends AT LEAST 150ppi at the size your file will be printed. 300ppi is ideal.

What type of file should I submit?

nwgi recommends creating a PDF using the "Press Quality" setting. **DO NOT** place crop marks or extra bleeds. The PDF file you submit should be 14.18"x27.5".

We do accept different file types like Adobe Illustrator, InDesign, Photoshop and others. If you submit a native file you MUST CONVERT ALL FONTS TO OUTLINES and embed all your graphics.

ADD 0.9cm 0.360" wrap around bleed

**FILE SIZE IS
14.18" x 27.5"
36cm x 69.8cm**

**VIEWABLE SIZE IS
14.18" x 26.77"
36cm x 68cm**

68cm (26.77") tall viewable

69.8 cm (27.5") tall total print height

ADD 0.9cm 0.360" wrap around bleed

36cm (14.18") wide

Our Table Top L Stands are made with a 10 oz. black back curl free product for one-sided applications where opacity is mandatory. The product has a five year guarantee against edge curl and is flame retardant. With a black back the product has a glare-deadening reverse surface with an aesthetically pleasing finish. It prints with all eco-solvent, solvent, UV Curable and latex ink jet printers.
